

## Meet the crew of Hopling Technologies next week in Las Vegas and London

**Almere, May 18, 2007** – Hopling Technologies, a rapidly growing leader in IP-based wireless networking equipment for enterprises, operators and service providers, is proud to announce its presence at the following events next week:

- Broadband Wireless World@Interop, May 22-24, at the Mandalay Bay Convention Center in Las Vegas, **booth #2512**.
- The Wireless Event, May 23-24, at the Olympia Exhibition and Conference Center, **booth #908**.

During the Broadband Wireless World event in Las Vegas, Peter Calis, Chief Operating Officer of Hopling Technologies, is panel member for the session: Broadband Technology Track, The Right Mix of Technology: WiFi, Mesh and WiMAX in the Network. Other panel members are: Frank Ohrtman (Moderator), *President, WMX Systems LLC*, George Wu, *Director of Marketing, Fujitsu Microelectronics America, Inc.* and Jim Freeze, *Senior Vice President, Marketing and Alliances, BelAir Networks*. This session will take place on Wednesday May 23, 10.15 am.

In London, Marinus Koppe, Vice President Channel Sales, will give a presentation about Mesh Networking for wide area coverage during the Wireless Networking and Security Seminars. This presentation is scheduled for Wednesday 23 May, 12.50 am. Frank Koopman, Chief Executive Officer, is also present at the booth of Hopling Technologies.

At both events, our crew is happy to welcome you at the booths. All your questions how Hopling Technologies' solutions can improve your wireless business, will be answered by our well trained professional staff members.

### **About Hopling Technologies**

Hopling Technologies is a global leader in wireless networking equipment for enterprises, operators and service providers. The company delivers carrier-grade hotspot solutions and proven Mesh Network solutions suitable for metropolitan area networks, wireless local area networks, the last mile, wireless connectivity, mobile broadband solutions, video surveillance, IP-based cellular phones (VoIP) and event-based solutions. Hopling Technologies offers WiMAX ready end-to-end solutions through its product portfolio based on the new Hopling Metro Topology. Hopling Technologies is an active member of the WiMAX Forum.
